Living the Word: Contexts & Connections

Jump start your weekly preparation for teaching, preaching, or worship leadership with our [Living the Word: Contexts & Connections](#) background resource! The encounter we have with God through the Bible is at the center of [faith formation](#), whether through preaching, worship, education, or small groups. However, the Bible was written a very long time ago over a long period in contexts very different than our own. This resource helps bridge that gap with researched and cited background notes.

Spirit & Truth: Teaching Kids the Heart of Worship

Spirit & Truth: Kids (PK-2nd)

Spirit & Truth: Kids (3rd-6th)

[*Spirit & Truth: Teaching Kids the Heart of Worship*](#) is a Christian education curriculum that engages students in the liturgical worship tradition by stopping and explaining why we do what we do in worship. The liturgy many churches use is a rich resource for worshipping God, but the meaning is opaque to many of us, especially children! Let's open up the meaning of our worship services to students so we can all worship our Lord together! You can purchase the whole year, or the Liturgy, Church Festivals, Advent Units, or Christmas Program separately.
