

# Product Pricing

Effective July 1, 2022

**Learning Together** is a curriculum series based around individual units on a variety of topics and themes. Each unit is five lessons long and designed to be used by both intergenerational and elementary-age participants, in traditional or rotation-model classrooms. These units are also easily adaptable for vacation Bible school!

Units can be used individually for a special educational focus (say during Lent or a VBS week) or arranged together for a longer period such as summer or even the program year.

As with all of our curriculum products, *Learning Together* unit pricing is based on the estimated average attendance range of the program in which you will be using the curriculum.
