

Dear Visitor:

Thank you for considering our *Living the Word: Classroom* faith formation resources for your Christian education program! Both our *Classroom (PK-2nd)* and *Classroom (3rd-6th)* products have variable pricing based upon the average number of students you anticipate will be using the product. Our purpose for this is to make our products financially accessible to smaller congregations at pricing levels that we would not be able to sustain to continue producing these faith formation resources.

What's more, there are no additional leaflets to purchase (ever!) or licenses to renew, so once you purchase a product, there will be no future costs other than activity supplies!

A few definitions would be helpful in reading our pricing tables below.

- **Attendance:** This is the estimated, average number of students in the Sunday school or other Christian education ministry in which the product will be used. If you plan on using a product for only a portion (e.g. one class), use only the attendance for that portion.
- **Full Year:** Our product year covers the typical nine-month program or school year with a total of 38 lessons.
- **Quarter:** We subdivide this “year” into three quarters or seasons. The Fall and Winter quarters each consist of 13 lessons, and the Spring quarter consists of 12 lessons. If you are interested in short-term products for Vacation Bible School, summer programming, or other special programming, check out our *Learning Together* series of topical units which can be used for intergenerational and children’s faith formation in both classrooms and Vacation Bible School.
